

**REPRODUCTIVE STATUS REPORT**  
*by Licensed Veterinarian*

MARE	
Name: _____	Reg #: _____
Color: _____	DOB: _____
Owner: _____	Phone: _____
Last Breed Date: _____	

As of this day, the mare referenced above was examined by ultrasound and standard veterinary clinical procedures. Based on the last breeding date reported to me, I report the following results:

**Said mare is pregnant...**

- with a single embryo consistent with the gestational period
- with a single embryo, smaller than the gestational period, therefore at risk of miscarriage
- with twins which will likely result in a single progressive embryo
- with twins which will likely result in miscarriage
- no evidence of infection
- evidence of infection, and currently receiving treatment

**Said mare is NOT pregnant...**

- with evidence of recent miscarriage
- with no evidence of infection and suitable for rebreeding
- with evidence of infection and requires treatment prior to rebreeding
